**U.S. PATENT DOCUMENTS**

| * |   | Document Number<br>Country Code-Number-Kind Code | Date<br>MM-YYYY | Name            | Classification |
|---|---|--------------------------------------------------|-----------------|-----------------|----------------|
| * | A | US-4,138,278                                     | 02-1979         | Nakasugi et al. | 148/648        |
| * | B | US-5,282,906                                     | 02-1994         | Heitmann et al. | 148/333        |
| * | C | US-5,352,304                                     | 10-1994         | DeArdo et al.   | 148/336        |
|   | D | US-                                              |                 |                 |                |
|   | E | US-                                              |                 |                 |                |
|   | F | US-                                              |                 |                 |                |
|   | G | US-                                              |                 |                 |                |
|   | H | US-                                              |                 |                 |                |
|   | I | US-                                              |                 |                 |                |
|   | J | US-                                              |                 |                 |                |
|   | K | US-                                              |                 |                 |                |
|   | L | US-                                              |                 |                 |                |
|   | M | US-                                              |                 |                 |                |

**FOREIGN PATENT DOCUMENTS**

| * |   | Document Number<br>Country Code-Number-Kind Code | Date<br>MM-YYYY | Country | Name | Classification |
|---|---|--------------------------------------------------|-----------------|---------|------|----------------|
|   | N |                                                  |                 |         |      |                |
|   | O |                                                  |                 |         |      |                |
|   | P |                                                  |                 |         |      |                |
|   | Q |                                                  |                 |         |      |                |
|   | R |                                                  |                 |         |      |                |
|   | S |                                                  |                 |         |      |                |
|   | T |                                                  |                 |         |      |                |

**NON-PATENT DOCUMENTS**

| * |   | Include as applicable: Author, Title Date, Publisher, Edition or Volume, Pertinent Pages)                                                                                            |
|---|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   | U | The properties of high toughness low-temperature -70C steels 09MnNiDR by Xiao Chen, Aimin Guo, Hanxiang Dong, Shurui Li. International Journal of Pressure Vessels and Piping, 1999. |
|   | V |                                                                                                                                                                                      |
|   | W |                                                                                                                                                                                      |
|   | X |                                                                                                                                                                                      |
